

Approved For Release 2004/05/05 : CIA-RDP85B00803R000200080057-3

Time-sharing - 4 June 1969, CABriggs Memo to D/FMSAC  
sub: OCS Computer Program Processing  
Support to FMSAC, S.

Mr. Briggs said that with the limited experience to date in the Time-Sharing System, and in particular due to the impact of continued addition of terminals, the system performance would require more time to judge. Meanwhile, due to the unique aspects of the FMSAC production schedule which required repeated computations and could run into problems given the current OCS job turnaround pattern, Mr. Briggs agreed to honor FMSAC's requirement for block time.
